

FRONTED ENGINEER (URUGUAY)

[Apply Now](#)

Company: Busquedas IT

Location: Montevideo

Category: computer-and-mathematical

Frontend Engineers at company build user interface components and libraries that scale to the business needs of a multi-product business and are performant, reliable, secure, responsive, and accessible. We're about more than great visuals. We deliver equally elegant developer experiences, striving to hide complexity and up-level less experienced UI engineers who leverage our libraries to deliver customer experiences that our users love.

Responsibilities

Build UI components, libraries, tools, and services that power the platform that impacts every user, whether they're an end user, developer, or partner

Ensure our UI components and libraries are reliable, scalable, secure, and extensible

Help drive sound technical decision making and lead technical conversations with other teams

Debug production issues across our UI programming model with an eye towards improving maintainability over the long term

3+ years of experience building scalable component libraries, design systems, and tools using JavaScript and TypeScript.

In-depth knowledge of CSS, HTML, and front-end languages.

Knowledge of REACT tools including Webpack, Enzyme, Redux, and Flux.

Experience with user interface design.

Knowledge of performance testing frameworks including Mocha and Jest.

Experience with browser-based debugging and performance testing software.

A combined passion for great user experience and API design

Experience shipping high-quality products from start to finish

Empathy, a collaborative spirit, and the ability to work effectively with a team

A desire to work closely with developers who depend on your libraries to deliver customer

value An appreciation for the importance of good documentation – internal and external

Attention to detail, especially around performance, accessibility, reliability, and security

Projects you may work on:< > Building the web components, design system, and UI

infrastructure behind all of Marco's user interfacesShaping complex problems into elegant

component patternsBuilding charting and visualization libraries

Designing the Marco Dashboard framework to support new products, services and customer insights

Communicating closely with developers that use Marco to create a superlative developer experience and documentation

Technical Skills

React, JS, or other technologies like Vue; ability to bring in exceptional design and UX/UI

skills and translate them into beautiful applications. Wireframes, Prototyping, Universal

Components, Dynamic design, experience with Progressive Web Apps

Benefits

Unlimited Time Off

Health Insurance
