## Java Backend Developer

[Apply Now](#)

Company: Etraveli Group

Location: Montevideo

Category: computer-and-mathematical

### Who we are

Etraveli Group is the globally leading company for tech solutions and fulfillment capabilities for online sales of flights. We are here to solve complexity, by connecting millions of flights and travelers across the globe, from search and selection to trip and beyond. We hold consumer online travel agency brands like Mytrip, GoToGate & Flight Network and serve Booking.com with flights. Etraveli Group has also established strategic partnerships with companies like Skyscanner, Google Flights, TUI, etc.

Every day we strive to make the world smaller for our customers and bigger for our people. Our diverse team of more than 2300 passionate professionals is what makes us the industry's tech wonder and the best in the world at what we do. Our major offices are in Sweden (HQ), Canada, Greece, India, Poland and Uruguay.

Join us and start as Java Backend Developer in our Back-end development team!

### Position Summary

We are looking for a passionate back-end developer to join our growing team. The position involves working on Java technologies, developing/maintaining our core back-end software system and facing fresh challenges along with your team members every day. The successful candidate must be knowledgeable in the field of software development and eager to contribute & work in a fast-paced, ever changing environment.

The position will be located at our Montevideo office.

### Responsibilities

You will be part of a team, who designs and implements features for our core back-end system, which handles from tens to hundreds of millions requests per day

Your code should be designed with performance and quality in mind; you will test your code and write automated tests

You will document and communicate your work with your team in order to deliver daily releases

You will work closely with software, product developers and QA engineers

You will be reviewing code, and your code will be reviewed

As part of the team, you will participate in the collaborative team activities

## **Our Stack**

Java 17, Gradle, MySQL 8, MemSQL, ScyllaDB, Couchbase, JUnit5/TestNG, Mockito, Kafka, Hibernate, Elastic / ELK, Kibana, Grafana, Jenkins, Git & Bitbucket, Intelli, GraphQL etc.

Of course you don't have to be familiar with all of our tech stack. We will support you in your journey with us!

## **Requirements**

You are a back-end developer with 5+ years of previous working experience

You have experience with at least one large-scale, high-volume production environment

You write code which is both readable and performant, and, you feel right at home with OOP, multi-tier architecture

You are a proponent of commonly used Design Patterns and SOLID Principles, and, deliver code that is well-tested and well-documented

You have a positive mindset, and you are motivated by challenging projects; new and existing. Rest assured we have a lot going on around here!

You know about Web Services development and integration with at least one of SOAP and REST, GraphQL

You have great communication skills in English

**The below will be considered an asset:**

You have knowledge of the travel industry, and specifically, flights

You have knowledge using the API of at least one of the major Global Distribution Systems

Experience on Unix/Linux environments

3+ years experience are on the Java stack

**Benefits**

**What we offer**

We are looking for people who would make the world smaller for travelers but want a bigger world of opportunities for themselves. With us you can enjoy:

Working in a hybrid model - having the opportunity to work both remotely and at the office! #LI-Hybrid

Health Benefits - Through partners, we offer a private health insurance plan. We also offer the possibility to use 2 extra medical leave days in case of need.

Vacations - We offer 5 extra days per year to enjoy at your convenience.

Office in the City – We sit in a bright and great office in Sinergia Faro with all the amenities and advantages of the space, having one of the most amazing views in the city.

Growth – We believe in personal development and continuous education. We allocate a generous budget each year to spend at conferences, seminars, online courses or

other means to learn new things. In addition to this, we continuously organize internal training and workshops, so that we can learn from each other.

Hackathon and Dev week – We believe in fostering creativity and testing new things. Therefore, we have recurring Hackathon and Dev weeks, where the teams decide what they want to work on.

Team activities - We also like to schedule company/department/team activities and events outside the office space!

Fun & Work - We have a relaxed working environment where you can enjoy free coffee, tea & fruits, playing ping pong or pool.

### **Diversity disclaimer**

At Etraveli Group we value diversity; we pride ourselves on being a company represented by people of all different backgrounds. During hiring, we are committed to ensure equality and promote diversity in the workplace at every selection stage. As such, we provide the same opportunities for all candidates regardless of race, religion or belief, gender, nationality, ethnicity, sexual orientation, age, marital status, disability, or any other characteristic protected under any anti-discrimination law or regulation.
