

## Salesforce Developer

[Apply Now](#)

Company: Modelit

Location: Montevideo

Category: computer-and-mathematical

We're looking for a Salesforce Developer to join our team at Modelit!

We're nearshore, cost-effective, certified Salesforce experts who keep our promise of reliable customizations so that you can relax while Salesforce helps your organization thrive.

Modelit develops Salesforce customizations with forward-thinking methods, team-oriented processes, and a trustworthy voice. We help our clients feel that we're committed to their success, so they can be confident that they're getting the max ROI in Salesforce. Our talented team has accumulated over 8-years of experience with several global clients.

The candidate will have the opportunity to gain new skills and knowledge on an on-going basis. Other perks of being a part of the Modelit team include: remote work, flexible hours, possibilities to get Certifications, career path plans, and a great team culture with fun activities!

### Responsibilities

Design, develop, test, and document high-quality business solutions on the Salesforce platform leveraging capabilities such as Apex Classes, Triggers, Lightning Web Components, REST APIs, Platform Events, Flows, and integrations with third-party services.

Design solutions and Implement features for AppExchange applications.

Actively participate in all phases of the development cycle.

Adhere to team design and development best practices.

Take ownership of project work and develop client relationships.

Collaborate with the wider team on designs and code reviews.

## **Requirements**

3+ years of Salesforce development experience with a strong focus on Apex, LWC, and REST APIs.

Experience in designing and developing AppExchange applications.

Advanced oral and written English skills.

Knowledgeable of the Salesforce platform, including but not limited to Data Model, and Security Model.

Proficiency in Salesforce development environment tools including VS Code and Git.

Ability to communicate with customers and provide recommendations on Salesforce solutions.

Good problem-solving skills and ability to give optimal solutions.

Experience with database design concepts and use of SOQL, SOSL, and SQL.

Experience with JavaScript, HTML, XML, WSDL, and CSS.

Experience with Salesforce API and Web Services (REST/SOAP/Bulk).

## **Nice To Have**
