Travel

Modest to moderate, as appropriate.

NetSuite is an Equal Opportunity Employer, and all qualified applicants will receive consideration for employment, as NetSuite does not discriminate on the basis of race, color, religion, sex, age, national origin, disability, veteran status, sexual orientation or any other classification protected by Federal, state, or local law.

Key Responsibilities:

Consultatively gathering customer requirements and collaborate with the customer to define the business challenge the customer is attempting to better understand with data

Taking the defined business objective, leveraging the understanding of the data model and producing analytics to provide actionable insights Identify new data and product patterns through data mining and communicate those complex concepts and the results of the analyses in a clear and effective manner through creative visualization directly to company executives

Extend the data warehouse by incorporating data from 3rd party datasets/applications Build data pipelines from multiple data sources by performing necessary ETL tasks including processing, cleansing, and verifying the integrity of data used for analysis

Lead project delivery as a technical expert when implementing solutions.

Develop solutions that follow product development guidelines and are in-line with established design standards and approved architectures.

Transfer product knowledge to customers to reinforce training and ensure adoption.

Resolve or escalate client issues as appropriate to support and engineering teams.

Develop and maintain up-to-date knowledge of Oracle and NetSuite analytics, data integration products and service offerings.

Work collaboratively with the NetSuite Product Team to influence design, product features and roadmap.

Attend internal meetings and collaborate by sharing knowledge and best practices within the practice including mentoring sessions for junior resources, and other strategic initiatives.

Support pre-sales efforts and drive technology adoption by positioning Oracle NetSuite Consulting services.
